Art Unit: 1621

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-7, 19 and 22 drawn to mixture of at least two amide based compounds, and process for producing, and method of use.

Group II, claim(s) 8-13, 20, and 23 drawn to amide based compounds, process for producing, and use of thereof.

Group III, claim(s) 14-18, drawn to polyolefin resin nucleating agents.

Group IV, claim(s) 21, 24, drawn to method of improving rigidity.

Group V, claim(s) 25-26, drawn to polyolefin compositions.

Group VI, claim(s) 27, drawn to the molded product.

2. The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I is drawn to the mixture as against single amide based compounds for Group II, whereas, Group III is drawn to the polyolefin resin nucleating agents, as against, Group IV being drawn to the improvement in rigidity and Group VII is drawn to the molded product, whereas, Group VI is drawn to the polyolefin compositions, thus lacking the same or corresponding special technical feature among them.

3. A telephone call was made to Donald Hanson on 11/10/08 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

Art Unit: 1621

requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to SHAILENDRA -. KUMAR whose telephone number is (571)272-0640. The examiner can normally be reached on Mon-Thur 8:00-5:30, Alt Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Daniel Sullivan can be reached on (571)272-0779. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
